different individuals and different levels, I guess. of...I don't know what else you, if you want to say sexually violent offender, but there still needs to be a distinction, I think. And if you don't feel that way, that's fine, because I want to get this bill passed regardless. I'm going to vote for it any way. And I'll make whatever change you want to on the terminology, but I want you to understand that there is a distinct difference here and it has to be defined in some manner, and that's, that's my only concern with, in the middle of this whole discussion, starting to change terms for the Nebraska law. I think it'll help the judges if we keep it the way it is, but if you want to change it and that, that has been struck, I will support that because I do support the bill and I want to see the piece of legislation go through. SENATOR CHAMBERS: Madam President, members of the Legislature, as I say the amendment is an extensive rewrite, and we were told that I was told that this deals with children or minors. And in the amendment on page 389 of the Journal, line 22, we have sexual assault of a vulnerable adult. So this puts an adult into it. They say in line 26, "Visual depiction of sexually explicit conduct of a child". So if somebody has child pornography, that, that's enough.... Let me ask Senator Abboud a question if he's available. Or I'll...oh, there he is. Senator Abboud, I'm looking on page 389 of the Journal, and you have to bear with me in kind of flying by the seat of my pants because I haven't had a chance to really analyze it. But I'm
